

Punit

Frontend Developer (Fresher)

Email id: ps0477580@gmail.com

Mobile No: 7988439210

GitHub: <https://github.com/Punit100643>

OBJECTIVE

A motivated and detail-oriented **Frontend Developer** seeking an internship opportunity where I can apply my skills in **HTML, CSS, and JavaScript** to build responsive and user-friendly web applications. I am eager to learn modern frontend frameworks like **React** and contribute to real-world projects while continuously improving my development skills.

SKILLS SUMMARY

- Hands-on experience in developing responsive and modern websites using **HTML, CSS, and JavaScript**.
- Strong understanding of **UI development**, layouts, and user experience principles.
- Experience in DOM manipulation, event handling, and basic JavaScript logic.
- Familiar with version control using **Git & GitHub**.
- Basic understanding of **API integration** and currently learning **React.js**.
- Experience in deploying projects using **Netlify**.

TECHNICAL SKILLS

HTML5 • CSS3 • JavaScript

Flexbox • Grid • Responsive Design

Git & GitHub • VS Code • Netlify

Currently Learning: React.js, API Integration

PROJECTS:

Project 1: ShopEasy – E-commerce Website (Frontend)

Live Link: <https://shopeasy-shop.netlify.app/>

Environment: HTML, CSS, JavaScript

Project1

Description:

ShopEasy is a responsive e-commerce frontend application designed to showcase products with a clean and modern user interface.

Roles & Responsibilities:

- Designed and developed responsive UI layouts for desktop and mobile devices.
- Built product cards, navigation bar, hero section, and reusable UI components.
- Improved user experience through clean design and consistent styling.
- Deployed the project using Netlify.

Project 2: Personal Portfolio Website

Live Link: <https://portfolio-pre.netlify.app/>

Environment: HTML, CSS, JavaScript

Description:

A personal portfolio website created to showcase projects, skills, and contact details.

Roles & Responsibilities:

- Designed and developed a modern portfolio with dark mode support.
- Implemented animations and responsive layouts.
- Integrated EmailJS for contact form functionality.

Project 3: Stopwatch Web Application

Live Link: <https://timesnap-timer.netlify.app/>

Environment: HTML, CSS, JavaScript

Description:

A simple stopwatch application to demonstrate JavaScript logic and DOM manipulation.

Roles & Responsibilities:

- Implemented start, pause, and reset functionality.
- Used event handling and JavaScript timing functions.
- Improved understanding of JavaScript fundamentals.
